Get focused on the next big thing

Count down to any target time you specify.

Displays up to four digits for days, allowing for countdowns up to 9,999 days (more than 27 years!).

Ten-digit display adjusts as countdown continues:

- When greater than 1000 days, the display shows four digits for days, two for hours, two for minutes and two for seconds.
- When the number of days is 999 or fewer, the display shows three digits for days, two each for hours, minutes and seconds, and uses the remaining digit for tenths of a second.

Set time from a computer running Windows 98 or later.

Optional custom sign panels (shown above) with sturdy enclosures are available to describe the countdown event a different sign panel can be ordered when you are ready to count down to a new event
